

# AWP Leadership Awards

## Nomination Form

Group ASI has established these awards to honor individuals with North American, European or Global responsibilities and an established record for implementing AWP in their own organization while supporting AWP implementation across the engineering and construction industry. The awards acknowledge those leaders that have demonstrated a long-term commitment to creating safer more productive construction projects. Individuals must be nominated for this award and the selection will be made by a panel of industry experts. Self-nominations are not acceptable.

We appreciate your interest and look forward to receiving your nominations submission.

---
