

# AWP Project Awards

## Application Form

**Which AWP Project Award are you submitting an application for?**

Small (< \$100 million USD)     Large (> \$100 million USD)

**Date of application:**

**Project title:**

**Project location:**

**Industry sector:**

**Statement of project scope:**

**TIC:**

**Project contact information and title:**

**Stakeholder input data from (name, title, and company):**

Owner:

Engineering:

Procurement:

Project Controls:

Construction:

**Project phase / completion date:**

---

*Note: In the following sections, judges reserve the ability to inquire about any scores or supporting detail included by the applicant.*

We appreciated your interest and look forward to receiving your applications.

---

**Section A – CII AWP Scorecard - 20%** (completed by \_\_\_\_\_ )

---

**Section B - Stakeholder Questions/Statements – 30%** (completed by each Stakeholder as possible or collected by project contact with supporting input)

**In regards to your department (Owner, E, P, CM, C, P/C):**

1. How much did you have to change your processes to adapt to AWP? What specifically did you change to implement AWP on this project?
2. How did you communicate AWP to your organization?
3. How did AWP benefit/impede your organization?
4. Did your organization have to collaborate more/less with other teams due to AWP?
5. What would you do different next time (Lesson Learned)?

**In regards to the Stakeholders:**

1. Have all the Stakeholders contributed to the application?

2. Have the Stakeholders expressed an understanding of their contribution to AWP?
  
  
  
  
  
  
  
3. Have the Stakeholders recognized how their contribution impacts the rest of the AWP process?
  
  
  
  
  
  
  
4. Did the Stakeholders notice a change in their effectiveness?
  
  
  
  
  
  
  
5. Your overall sense of Stakeholder engagement?

---

**Section C – Results – 30%**

Express the project benefits quantitatively within your ability to share information publicly. Please share project notable results.

Is/did your project experience tangible changes in performance in any of these areas:

**Safety:**

- Percentage improvement (TRIR) *(if information is approved for public disclosure):*
  - Baseline (Industry or company average TRIR rate):
    - This Project:

**Quality:**

- Percentage improvement (Non-Conformance Reports) *(if information is approved for public disclosure)*:
- Baseline (Industry average rate for Non-conformance Reports):
  - This Project:

**Cost Performance:**

- CPI (PF):

**Schedule Performance:**

- SPI:

**System Turnover:**

- Percentage improvement (Company average for punch list items per system) *(if information is approved for public disclosure)*:
- Baseline (Company average Company average for punch list items per system):
  - This Project:

**Productivity:**

(Note: Baseline examples can be provided based on Gulf Coast data, but the applicant will need to provide baseline for the region that their project was completed.)

- Percentage improvement *(if information is approved for public disclosure)*:

**Commodity installation rates for:**

- **Civil** (hrs / cu yard) Baseline:
  - This Project:
- **Steel** (hrs / ton) Baseline:
  - This Project:
- **Pipe** (hrs / lf pipe) Baseline (e.g. Gulf Coast average 4.2 hours/lf):
  - This Project:

- **Electrical** (hrs / If raceway) Baseline:
  - This Project:
- **Instrumentation** (hrs / installed instrument count) Baseline:
  - This Project:
- **Other:** Baseline:
  - This Project:

**Average diameter inches of weld per welder, per day:**

- Percentage improvement *(if information is approved for public disclosure)*:
- Baseline (Industry average 6):
  - This Project:

**Scaffold:**

- Percentage improvement *(if information is approved for public disclosure)*:
- Baseline (% of direct hours):
  - This Project:

**Time on Tools:**

- Percentage improvement *(if information is approved for public disclosure)*:
- Baseline (e.g. Average project direct 37%):
  - This Project:

**Section D – Lessons Learned – 20%**

Did your project capture any lessons in these areas that will help future applications of AWP?

- Front End Planning:

- Engineering:
  
- Procurement:
  
- Information Management:
  
- Document Management:
  
- Material Management:
  
- Project Controls:
  
- Construction Management:
  
- Construction Execution:
  
- System Turnover:

Can these lessons learned be shared with the AWP community, after any identifying data has been removed?

Yes

No

**QUESTIONS?:** contact Lloyd Rankin at 403-615-7121 or [lrankin@groupasi.com](mailto:lrankin@groupasi.com)

Thank you for your nomination. **Please send this form to Lloyd Rankin at [lrankin@groupasi.com](mailto:lrankin@groupasi.com) for consideration.**
